Steps taken to arrest the declining marine shrimp resources

6651. SHRI V. HANUMANTHA RAO: Will the Minister of FOOD PROCESSING INDUSTRIES be pleased to state:

(a) whether Government propose to arrest the trend of declining marine shrimp resources by reducing the number of deep sea trawlers;

(b) if so, the details thereof;

(c) whether any optimum number has been fixed for annual operation of the coast of Visakhapatnam; and

(d) if so, the details thereof?

THE MINISTER OF STATE OF THE MINISTRY OF FOOD PROCESSING INDUSTRIES (SHRI TARUN GOGOI): (a) and (b) The data on the landing of shrimp resources is given below:

'000 tonnes

Year	Penaeid shrimp	Non-Penaeid shrimp	Total
1988	140	87	227
1989	138	90	228
1990	150	103	253
1991	173	115	288
1992	187	95	282

This data indicates that there is no declining trend in the total shrimp landings in India. However, in order to reduce the pressure on the already heavily exploited shrimp resources, introduction of new shrimp trawlers on the east Coast is not allowed. Deep sea fishing vessels intoduced under joint ventures, leasing and test fishing are also not permitted to operate in the shrimping grounds of North East Coast. Government also encourages diversified fishing by modification of existing trawlers in order to reduce the pressure on shrimp resources on the East coast and to improve the bio-economics status of this fishery.

(c) and (d) No Sir However, no increase in the present number of trawlers is permitted.
